When the world says, "Let your emotions lead you," we as Christ-followers must find a different course, navigating through the minor whirlpools, unpredictable winds, and sometimes ferocious hurricanes. Christ's words and actions guide our ships into deeper waters and beyond to the other shore. This book explores scriptural anchoring points, personality influence, and past experiences to give us a new vision of the weighted tension between letting loose with our feelings or cinching up and ignoring them altogether. As human beings, we are created with emotional dimension, and within Christ, we are called to surrender these feelings, using them in a healthy and biblical way.

Declared "the best survival book in a decade" by Outside Magazine, 438 Days is the true story of the man who survived fourteen months in a small boat drifting seven thousand miles across the Pacific Ocean. On November 17, 2012, two men left the coast of Mexico for a weekend fishing trip in the open Pacific. That night, a violent storm ambushed them as they were fishing eighty miles offshore. As gale force winds and ten-foot waves pummeled their small, open boat from all sides and nearly capsized them, captain Salvador Alvarenga and his crewmate cut away a two-mile-long fishing line and began a desperate dash through crashing waves as they sought the safety of port. Fourteen months later, on January 30, 2014, Alvarenga, now a hairy, wild-bearded and half-mad castaway, washed ashore on a nearly deserted island on the far side of the Pacific. He could barely speak and was unable to walk. He claimed to have drifted from Mexico, a journey of some seven thousand miles. A "gripping saga," (Daily Mail), 438 Days is the first-ever account of one of the most amazing survival stories in modern times. Based on dozens of hours of exclusive interviews with Alvarenga, his colleagues, search-and-rescue officials, the remote islanders who found him, and the medical team that saved his life, 438 Days is not only "an intense, immensely absorbing read" (Booklist) but an unforgettable study of the resilience, will, ingenuity and determination required for one man to survive more than a year lost and adrift at sea.

Few parts of the shores of old England present more beautiful and romantic scenery than is to be found on the coast of Cornwall. There are deep bays, and bold headlands, and wild rocks,

and lofty cliffs, and wooded heights, and bare downs, and yellow sands full of the most minute and delicate shells, so delicate that it is surprising how they could have existed in the rough and boisterous ocean, and been cast up whole from the depths below. In one of those beautiful bays, many years ago, a large party was collected, on a bright afternoon in the early part of autumn. Among the party were persons of all ages, but most of them were young, and all were apparently very busy. Some were engaged in tending a fire over which a pot was boiling, and others were collecting drift-wood thrown up close under the cliff, with which to feed it.

Framed by New England's 1938 Hurricane and advanced through flashbacks, voices of the land, and historical lore, this is the story of MacFarland, a Scots Highlander whose identity is altered by forced exiles. His story emerges in seventeenth-century Connecticut, the era of the Pequot War between Pequots and English colonists in league with Mohegans. Like MacFarland, Sassacus and Uncas, the Pequot and Mohegan sachems, become "identities in exile." MacFarland is driven from Scotland to Guildford, southwest of London. Shortly after meeting the Puritan Roger Williams, MacFarland emigrates to Massachusetts Bay Colony, then to the Connecticut shoreline, where he befriends a Quinnipiac family and later the two sachems, as well as the commander of Fort Saybrook. Through the Pequot War, MacFarland is forced to decide where his loyalties reside. Ultimately, he finds himself estranged anew and embarks on a "journey-quest" northward along the Connecticut River and disappears, lost in this final exile. As inspired by psychologist Erik Erikson's notion of a lifelong series of "identity crises," MacFarland must assume new identities as he endures his exiles. His exiles reflect our search for our own place between "civilization" and "wilderness" - and beyond.

Small print edition 5x8 Starkishia: Estrella is a story about a little girl who grew up too fast to feel the grass wear thin under the soles of her shoes. Abuse thickened her skin, yet her nightmares were as dark as they were real. The library became her sanctuary where stories took her to another place and time. But, in reality there was nothing imaginary about the bruises under her clothing as she advanced from one classroom to another during middle school, or nothing fictitious about being molested by the maggot hands of a despicable relative. Her plight was hidden in a small town in Georgia, just as her physical abuse was disregarded by the school's social worker. This colored child was brought into this world by her 14 year old mother who was ruthlessly dominated by her husband. Starkishia loved her mother above all else; her step-father who provided shelter for them witnessed her birth and helped raise her. She consumed pieces of joy, but sometimes she received broken reprisals and ended up walking down the dark road alone; yet in some fortunate way humanity was always within reach. After her parents split up, Starkishia and her family ended up in Texas. Single parenthood changed their family structure forevermore. Starkishia became a wage earner at age 13; she also became homeless the following year. She was, for years, engulfed by her impoverished and dysfunctional environment. She married a native of Mexico a few days after her 15th birthday. He nicknamed her 'Estrella' a Spanish term which means 'Star.' It goes without saying that Starkishia was born in the land of opportunity, but it was not exactly within her reach. Yes, she was her grandmother's star, but she was a statistic of minimal proportions as far as small town and suburbia America was concerned. Shortly after marriage, she became a mother. Afterward the life of this teen went downhill at lightning speed. Many readers will identify with her; for, she walked away from

her husband broken hearted; then, she fell in love with another man, and as new babies arrived, she took her limited funds and focused on the lives of those under her roof; in time, her parental absence to her oldest two children turned flat out into abandonment. Have mercy! Starkishia was a lost teen, but through grace she eventually became a productive woman in American society. Meredith Etc., a small press, proudly introduces readers to Starkishia: Estrella, a story about the perils of teen parenthood, economic dispossession, and the charity of new beginnings. From the author of *Rain and Featherstone* comes a story of a sun-drenched, sea-soaked day which changes a boy's life forever. At the start of a summer's day, Ward is waiting on the beach. His friend, Alex, wants him to come to a party at Alison's where there'll be girls and drinks and the possibilities of fun. But Ward is shy and self-conscious and struggling to move from under the weight of his powerful father. He'd rather wait on the beach for the surf to come up. As the sun moves towards its highest point and the girls' laughter carries along the wind towards Ward, the tide changes and Ward is faced with a dramatic event that will change his life forever. This beautiful and intense coming-of-age story captures perfectly the discomforts and challenges of being fifteen years old with the world stretching out in front of you. A memoir that also offers a practical pathway for those struggling with loss, *The Last Seven Pages* is a testimony of a God who is present in our darkest moments, and who turned a devastating illness into a life-changing promise.

The growing buzz of aircraft engines disturbed the Japanese military construction personnel hauling equipment ashore on the beige coral sand of Tulagi island at 8:20 AM on May 4th, 1942. Offshore, the large IJN (Imperial Japanese Navy) minelayer Okinoshima, flagship of Admiral Shima Kiyohide, lay at anchor, along with two destroyers, Kikuzuki and Yutsuki, and transport ships. Six Japanese Mitsubishi F1M2 floatplanes also rested on the gentle, deep blue swell, marking Tulagi's future as an IJN floatplane base. The men on the beach, at inland construction sites, or aboard the Japanese ships, looked up towards the huge white cumulus clouds sailing on the ocean wind. Taken completely by surprise, the Japanese stood and stared as 13 sturdy-looking dive bombers dropped through the cumulus layer at 6,000 feet, plunging towards the IJN ships. As they streaked lower, the white star on a black disc insignia of American aircraft grew visible on the underside of each wing. As the dive bombers roared low, drowning out the soft clacking of palm-fronds agitated by the steady sea breeze, the dark capsule shapes of 1,000-lb bombs broke away from their undersides and hurtled towards the anchored ships. Amid the sudden thunder of explosions, huge fountains of white foam gushed upward, sparkling in the tropical sunlight before collapsing back into the sea. Only as the American Douglas SBD-3 Dauntless dive bombers began climbing out of their attack did the Japanese finally open fire with the four anti-aircraft guns set up on the Tulagi shore. As Lieutenant Commander William Burch, leader of Scouting Five from the carrier USS Yorktown, later reported, "We took them by surprise, and they didn't start shooting at us until we pulled out [...] We hopped back over Guadalcanal, and landed aboard. [...] Only one plane had been hit by anti-aircraft. Its sway braces on the bomb rack were damaged. A couple of the dive bombers were attacked by a fighter on floats, but they shot him down. It was the only enemy plane we saw. What's more, I didn't see a ship sink." (Ludlum, 2006, 70). The Japanese, attacked throughout the day, radioed this information to the IJN task forces operating in the area. The unmistakable US carrier aircraft meant an American aircraft carrier sailed nearby, surprising the Japanese, who had not expected any enemy "flattops" in the Coral Sea near Australia at that time. In fact, the airstrikes on Admiral Shima's Tulagi invasion force marked the start of the strategically important Battle of the Coral Sea. While the Battle of the Coral Sea is not as well known as other battles across the Pacific, it set a precedent by pitting enemy aircraft carriers against each other, a battle in which the rival navies themselves never sighted each other or fired a gun at each other. Instead, the fighting was done with the carriers' aircraft, something that would become more common over time and would result in decisive actions at places like Midway just months later. Furthermore, while it was in a sense a tactical victory for the Japanese, it would end up helping blunt their aggressive push east in the
