

Aqa As And A Level Computer Science P M Heathcote

A new series of bespoke, full-coverage resources developed for the 2015 A Level English qualifications. Endorsed for the AQA A/AS Level English Language specifications for first teaching from 2015, this print Student Book is suitable for all abilities, providing stretch opportunities for the more able and additional scaffolding for those who need it. Helping bridge the gap between GCSE and A Level, the unique three-part structure provides essential knowledge and allows students to develop their skills through a deeper study of key topics, whilst encouraging independent learning. An enhanced digital version and free Teacher's Resource are also available.

A new series of full-coverage resources developed for the AQA 2016 A/AS Level Geography specification. This full-colour Student Book covers all core and optional units for the AQA AS and A Level Geography specification for first teaching from September 2016. Students are encouraged to develop links between physical and human topics, understand systems, processes, and acquire geographical skills. Helping to bridge the gap from GCSE to A Level, it also provides support for fieldwork skills and for the geographical investigation at A Level. A 'Maths for geographers' feature helps students develop and apply their

mathematical and statistical skills, and a range of assessment-style questions support students in developing their exam skills.

Exam Board: AQA Level & Subject: AS Sociology First teaching: September 2015 First exams: June 2016 AQA approved

New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning and revision. Written for the AQA AS/A Level Further Mathematics specification for first teaching from 2017, this print Student Book covers the Mechanics content for AS and A Level. It balances accessible exposition with a wealth of worked examples, exercises and opportunities to test and consolidate learning, providing a clear and structured pathway for progressing through the course. It is underpinned by a strong pedagogical approach, with an emphasis on skills development and the synoptic nature of the course. Includes answers to aid independent study. This book has entered an AQA approval process.

Exam Board: AQA Level: AS/A-level Subject: French First Teaching: September 2016 First Exam: June 2017 Our Student Book has been approved by AQA.

Support the transition from GCSE and through the new A-level specification with a single textbook that has clear progression through four defined stages of learning suitable for a range of abilities. We have developed a completely new

textbook designed specifically to meet the demands of the new 2016 specification. The Student Book covers both AS and A-level in one textbook to help students build on and develop their language skills as they progress throughout the course. - Supports the transition from GCSE with clear progression through four stages of learning: transition, AS, A-level and extension - Exposes students to authentic target language material with topical stimulus, and film and literature tasters for every work - Builds grammar and translation skills with topic-related practice and a comprehensive grammar reference section - Develops language skills with a variety of tasks, practice questions and research activities - Gives students the tools they need to succeed with learning strategies throughout - Prepares students for the assessment with advice on essay-writing and the new individual research project Audio resources to accompany the Student Book must be purchased separately through your institution. They can be purchased in several ways: 1) as part of the Dynamic Learning Teaching and Learning resource; 2) as a separate audio download; 3) as part of the Student eTextbook. The Audio resources are not part of the AQA approval process.

Practise and prepare for AQA A-level Chemistry with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen

knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book. Practise and prepare for AQA A-level Physics with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of

question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book.

A new series of bespoke, full-coverage resources developed for the 2015 A Level English qualifications. Endorsed for the AQA A/AS Level English Language and Literature specification for first teaching from 2015, this print Student Book offers stretch opportunities for the more able and additional scaffolding for those who need it. Providing full coverage of the specification, the unique three-part structure bridges the gap between GCSE and A Level and develops students' understanding of descriptive linguistics and literary and non-literary stylistics, together with support for the revised coursework component and new textual intervention task. An enhanced digital edition and free Teacher's Resource are also available.

AQA Psychology for AS and A-level Year 1 is the definitive textbook for the new 2015 curriculum. Written by eminent psychologist Professor Michael Eysenck, in collaboration with a team of experienced A-level teachers and examiner, the book enables students not only to

pass their exams with flying colours, but also to fully engage with the science of psychology. As well as covering the six core topics students will study, the book includes: Activities which test concepts or hypotheses, bringing theory to life Key research studies explained and explored, showing the basis on which theory has developed Case studies which show how people's lives are affected by psychological phenomena Evaluation boxes which critically appraise key concepts and theories Self-assessment questions which encourage students to reflect on what they've learnt Section summaries to support the understanding of specific ideas – perfect for revision Exam hints which steer students towards complete and balanced answers Key terms defined throughout so students aren't confused by new language 200 figures, tables and photos End of chapter further reading to enable students to develop a deeper understanding End of chapter revision questions and sample exam papers to consolidate knowledge and practice exam technique A full companion website with a range of further resources for both students and teachers, including revision aids and class materials Incorporating greater coverage of research methods, as well as key statistical techniques, the sixth edition of this well-loved textbook continues to be the perfect introduction to psychology. Accessible yet rigorous, the book is the ideal textbook for students taking either the AS course or year 1 of the A-level.

Exam board: AQA Level: A-level Subject: Design and Technology First teaching: September 2017 First exams: Summer 2018 (AS) Summer 2019 (A-Level) Encourage your students to be creative, innovative and critical designers with a textbook that builds in-depth knowledge and understanding of the materials, components and processes associated with the creation of fashion and textile products. Our experienced author team will help guide you through the

requirements of the specification, covering the core technical and designing and making principles needed for the 2017 AQA AS and A-level Design and Technology Fashion and Textiles specification. - Explores real-world contexts for fashion and textiles - Develops practical skills and theoretical knowledge and builds student confidence - Supports students with the application of maths skills to fashion and textiles - Helps guide students through the requirements of the Non-Exam Assessments and the written exams at both AS and A-level Develop students' experimental, analytical and evaluation skills with contemporary and topical biology examples, practical assessment guidance and differentiated end of topic questions, with this AQA Year 1 student book (includes AS-level) - Provides support for all 12 required practicals with plenty of activities and data analysis guidance - Develops understanding with engaging and contemporary examples to help students apply their knowledge, analyse data and evaluate findings - Gives detailed guidance and examples of method with a dedicated 'Maths in Biology' chapter and mathematical support throughout to consolidate learning - Offers regular opportunities to test understanding with Test Yourself Questions, Differentiated End of Topic Questions and Stretch and Challenge Questions - Supports exam preparation with synoptic questions, revision tips and skills - Develops understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries
