Moto-journalist Clement Salvadori has been riding motorcycles since the age of 15 and traveling all of his life, accumulating well over a million miles in the saddle across more than 70 countries on six continents. No Thru Road covers 30 different trips he has taken, to places like Afghanistan and Zimbabwe, since his first ride through western Europe in 1957. The stories are all original, though the subject may have appeared as a magazine article in a very different rendition. The book will appeal to adventure-travel enthusiasts and to motorcyclists and travelers of all persuasions. Adventurous riders will thoroughly appreciate the book, as in the description of kick-starting a 500cc single - never easy to do - at 17,200 feet in the Tibetan Himalayas. Or going up to Cape Tribulation in Australia's Queensland in 1974 when the only access was via a once-a-week ferry across the Daintree River. Or riding a bike to Pamplona, Spain, in 1960 in order to run with the bulls. Activists who want to get on their motorcycles and ride down into Mexico's Copper Canyon will enjoy the book, as will the arm-chair traveler who is happy reading about traveling from Peru's Great Ica Desert over the Andes Mountains to the Amazon basin. Clement's adventures are arranged so the reader can open the book to any chapter, be it India, Nepal, the Sahara, New Zealand or Viet Nam, and not have to worry about following a thread. Lots of adventures, lots of good reading, lots of photos and illustrations. This book promises excellent entertainment and a glimpse into life as a moto-journalist.

History has not been kind to Jefferson Davis. His cause went down in disastrous defeat and left the South impoverished for generations. If that cause had succeeded, it would have torn the United States in two and preserved the institution of slavery. Many Americans in Davis's own time and in later generations considered him an incompetent leader, if not a traitor. Not so, argues James M. McPherson. In *Embattled Rebel*, McPherson shows us that Davis might have been on the wrong side of history, but it is too easy to diminish him because of his cause's failure. In order to understand the Civil War and its outcome, it is essential to give Davis his due as a military leader and as the president of an aspiring Confederate nation. Davis did not make it easy on himself. His subordinates and enemies alike considered him difficult, egotistical, and cold. He was gravely ill throughout much of the war, often working from home and even from his sickbed. Nonetheless, McPherson argues, Davis shaped and articulated the principal policy of the Confederacy with clarity and force: the quest for independent nationhood. Although he had not been a fire-breathing secessionist, once he committed himself to a Confederate nation he never deviated from this goal. In a sense, Davis was the last Confederate left standing in 1865. As president of the Confederacy, Davis devoted most of his waking hours to military strategy and operations, along with Commander Robert E. Lee, and delegated the economic and diplomatic functions of strategy to his subordinates. Davis was present on several battlefields with Lee and even took part in some tactical planning; indeed, their close relationship stands as one of the great military-civilian partnerships in history. Most critical appraisals of Davis emphasize his choices in and management of generals rather than his strategies, but no other chief executive in American history exercised such tenacious hands-on influence in the shaping of military strategy. And while he was imprisoned for two years after the Confederacy's surrender awaiting a trial for treason that never came, and lived for another twenty-four years, he never once recanted the cause for which he had fought and lost.--Publisher.
