This book is an examination of personal identity, exploring both who we think we are, and how we construct the sense of ourselves through art. It proposes that the notion of personal identity is a psycho-social construction that has evolved over many centuries. While this idea has been widely discussed in recent years, Andrew Spira approaches it from a completely new point of view. Rather than relying on the thinking subject's attempts to identify itself consciously and verbally, it focuses on the traces that the self-sense has unconsciously left in the fabric of its environment in the form of non-verbal cultural conventions. Covering a millennium of western European cultural history, it amounts to an 'anthropology of personal identity in the West'. Following a broadly chronological path, Spira traces the self-sense from its emergence from the collectivity of the medieval Church to its consummation in the individualistic concept of artistic genius in the nineteenth century. In doing so, it aims to bridge a gap that exists between cultural history and philosophy. Regarding cultural history (especially art history), it elicits significances from its material that have been thoroughly overlooked. Regarding philosophy, it highlights the crucial role that material culture plays in the formation of philosophical ideas. It argues that the sense of personal self is as much revealed by cultural conventions - and as a cultural convention - as it is observable to the mind as an object of philosophical enquiry.

The plot of this spy-detective novel turns on a senior figure in British Intelligence, who is being blackmailed by an American spy. The blackmail material, a photograph showing the Intelligence man as a former Nazi officer, is concealed in a travel book called Bannerman's Guide taken by a young British diplomat on a Danube River cruise from Vienna to the Black Sea and back. As several people are carrying other copies of the book, the story turns on who has possession of the key copy, which the American spy hopes will reach the hands of KGB agents at some undetermined point during the cruise. Various individuals are also keen to get hold of the key copy. These include an American double agent posing as a collector of folk music, and an agent of Siegfried, an organization that materially assists former Nazis. As the cruise progresses, mysterious incidents connected with the guide book occur at each of the several East European capitals along the Danube. Budapest, Belgrade and Bucharest during the Cold War era form fascinating venues and authentic background based on the author's travel experience. An English detective, Inspector Mason, begins the cruise as a genuine tourist, but gets drawn in to investigating these incidents in considerable depth, and at considerable risk to himself, until he has gathered enough evidence to be able to solve the puzzle in London. Who is carrying the key copy of the Bannerman, the significance of the material it contains and the unmasking of the spy form the intriguing climax to the story. Something of a genuine holiday atmosphere on the boat is maintained throughout, including a romantic interest and a rivalry between Mason and the young diplomat over one of the women passengers. Treat yourself to a cruise on Europe's majestic Danube River from Vienna to the Black Sea with a mixed group of characters who are unwittingly drawn into an intriguing espionage plot. From your armchair explore the fascinating old cities of Budapest, Belgrade and Bucharest as each port of call on the outward and return voyages carries the plot a significant stage further and the tensions and rivalries on board become more acute.

A distinguished historian and Budapest native offers a rich and eloquent portrait of one of the great European cities at the height of its powers. Budapest, like Paris and Vienna, experienced a remarkable exfoliation at the end of the nineteenth century. In terms of population growth, material expansion, and cultural exuberance, it was among the foremost metropolitan centers of the world, the cradle of such talents as Bartók, Kodály, Krúdy, Ady, Molnár, Koestler, Szilard, and von Neumann, among others. John Lukacs provides a cultural and historical portrait of the city—its sights, sounds, and inhabitants; the artistic and material culture; its class dynamics; the essential role played by its Jewish population—and a historical perspective that describes the ascendance of the city and its decline into the maelstrom of the twentieth century. Intimate and engaging, Budapest 1900 captures the glory of a city at the turn of the century, poised at the moment of its greatest achievements, yet already facing the demands of a new age. “Lukacs's Budapest, like Hemingway's Paris, is a moveable feast.” —Chilton Williamson “Lukacs's book is a lyrical, sometimes dazzling, never merely nostalgic evocation of a glorious period in the city's history.” —The New York Review of Books “A reliable account of a beautiful city at the zenith of its prosperity.” —Publishers Weekly

The Danube is the longest river in western and central Europe. Rising amidst the beautiful wooded hills of Germany's Black Forest, it touches or winds its way through ten countries and four capital cities before emptying into the Black Sea through a vast delta whose silt-filled channels spread across eastern Romania. From earliest times, the river has provided a route from Europe to Asia that was followed by armies and traders, while empires, from the Macedonian to the Habsburg, rose and fell along its length. Then, in the middle of the twentieth century, the Danube took on the role of a watery thread that unified a continent divided by the Iron Curtain. In the late 1980s the Iron Curtain lifted but the Danube valley soon became an arena for conflict during the violent break-up of the former Yugoslavia. Now, passing as it does through some of the world's youngest nations, including Slovakia, Croatia, Serbia, Moldova, and Ukraine, the river is a tangible symbol of a new, peaceful, and united Europe as well as a vital artery for commercial and leisure shipping. Andrew Beattie explores the turbulent past and vibrant present of the landscape through which the Danube flows, where the enduring legacies of historical regimes

from the Romans to the Nazis have all left their mark.

The magnificent Danube both cuts across and connects central Europe, flowing through and alongside ten countries: Romania, Ukraine, Moldova, Bulgaria, Serbia, Croatia, Hungary, Slovakia, Austria, and Germany. Travelling its full length from east to west, against the river's flow, Nick Thorpe embarks on an inspiring year-long journey that leads to a new perspective on Europe today. Thorpe's account is personal, conversational, funny, immediate, and uniquely observant—everything a reader expects in the best travel writing. Immersing himself in the Danube's waters during daily morning swims, Thorpe likewise becomes immersed in the histories of the lands linked by the river. He observes the river's ecological conditions, some discouraging and others hopeful, and encounters archaeological remains that whisper of human communities sustained by the river over eight millennia. Most fascinating of all are the ordinary and extraordinary people along the way—the ferrymen and fishermen, workers in the fields, shopkeepers, beekeepers, waitresses, smugglers and border policemen, legal and illegal immigrants, and many more. For readers who anticipate their own journeys on the Danube, as well as those who only dream of seeing the great river, this book will be a unique and treasured guide.
