For more than thirty years the Monks of New Skete have been among America's most trusted authorities on dog training, canine behavior, and the animal/human bond. In their two now-classic bestsellers, *How to be Your Dog's Best Friend* and *The Art of Raising a Puppy*, the Monks draw on their experience as long-time breeders of German shepherds and as trainers of dogs of all breeds to provide--brilliantly distilled--the indispensable information and advice that every dog owner needs. This new edition of *The Art of Raising a Puppy* features new photographs throughout, along with updated chapters on play, crating, adopting dogs from shelters and rescue organizations, raising dogs in an urban environment, and the latest developments in canine health and canine behavioral theory.

The American Joint Committee on Cancer's *Cancer Staging Manual* is used by physicians throughout the world to diagnose cancer and determine the extent to which cancer has progressed. All of the TNM staging information included in this Sixth Edition is uniform between the AJCC (American Joint Committee on Cancer) and the UICC (International Union Against Cancer). In addition to the information found in the Handbook, the Manual provides standardized data forms for each anatomic site, which can be utilized as permanent patient records, enabling clinicians and cancer research scientists to maintain consistency in evaluating the efficacy of diagnosis and treatment. The CD-ROM packaged with each Manual contains printable copies of each of the book's 45 Staging Forms.

„Ceea ce ne ofera Simona Preda in aceasta carte fascinanta este o calatorie in

interiorul propagandei pentru copii din Romania comunizata, o analiza riguroasa si de o admirabila adancime, a institutiilor, metodelor si simbolurilor aferente, care aveau ca scop ceea ce propaganda numea plamadirea omului nou. Cu talent narativ si acuratete conceptuala, autoarea ne invita sa intelegem cum se construia matricea emotionala a angajamentului comunist inca din anii copilariei. Scopul era, evident, denigrarea si demolarea a tot ce tinea de „trecutul negru“. Prindea fiinta cultura alternativa a noii formatiuni, cu miturile, arhetipurile, comandamentele si obsesiile ei. [...] In spatele acestei carti se afla munti de lecturi. Simona Preda discuta literatura de copii a anilor '50, mitografiile sovietice ori de inspiratie sovietica. Intre acestea, legenda pionierului-erou, micul delator Pavlik Morozov. Ceea ce ni se inocula prin acel mit era devotamentul total pentru partidul-stat. Ni se sugera ca nu poate exista loialitate reala decat pentru cauza sacralizatului Partid. Timp in care, acasa, ni se spunea sa ne tinem gura, sa nu povestim nimic din ceea ce auzeam ca-si spun, ori isi soptesc, parintii nostri.“ – Vladimir Tismaneanu

Lucian Blaga (1895-1961) is judged by many to be Romania's most original philosopher and greatest poet of the twentieth century. While scholars with access to his works in Romanian are well-aware of their importance, his work has remained, up to now, little known in the English-speaking world. The book represents one of the first efforts to make Blaga's work accessible to an international audience. *Zalmoxis* is Blaga's first play and one of his most important literary works. It underlines much of his philosophy and also reflects his poetry. Blaga's attachment to Expressionist ideals is discernible in his treatment of the characters primarily as vehicles of ideas and his preference for primitive nature over the cultured metropolis. This book includes an

introduction by Keith Hitchins of the University of Illinois, one of the leading historians of Romania in the United States and a scholar intimately acquainted with Blaga's life and work. In it, he discusses the life of Lucian Blaga, and the importance of his literary and philosophical work. The translation is by Doris Plantus-Runey from Wayne State University in the United States.

The lives of two sisters--Nettie, a missionary in Africa, and Celie, a southern woman married to a man she hates--are revealed in a series of letters exchanged over thirty years

Breakouts. Dryness. Redness. Oiliness. If you're like most women, you've been on a never-ending quest for perfect skin—or even just good skin—since adolescence. It's a frustrating pursuit to say the least, filled with one disappointing (and expensive) miracle solution after another. Why is it so hard to get good skin? Adina Grigore, founder of the organic skincare line S.W. Basics, would argue that getting clear, calm, happy skin is about much more than products and peels. Or, rather, it's about much less. In *Skin Cleanse*, she guides readers through a holistic program designed to heal skin from the inside out. We tend to think of our skin as a separate entity from the rest of our bodies when in fact it is our largest organ. The state of our skin is a direct reflection of what our bodies look like on the inside. So Adina's program begins as any healthy regime should: with the basics for full-body health. That means eating plenty of fresh, whole foods; drinking more water; getting blood pumping and oxygen flowing to your cells

through movement; and giving your skin a chance to repair and regenerate by resting. From there, readers are challenged to a skin cleanse that requires going product-free for twenty-four hours. Once detoxed, Adina then shows us how to overhaul our beauty routine, how to carefully add some products back in, and even how to make our own products at home, with advice and targeted solutions for specific skin conditions such as acne, dry skin, oily skin, and more. The secret to beautiful, stress-free skin is simple: it's an inside job.

Beamer is a LATEX class for creating presentations that are held using a projector, but it can also be used to create transparency slides. Preparing presentations with beamer is different from preparing them with wysiwyg programs like OpenOffice.org Impress, Apple Keynote, KOffice KPresenter or Microsoft PowerPoint. A beamer presentation is created like any other LATEX document: It has a preamble and a body, the body contains sections and subsections, the different slides (called frames in beamer) are put in environments, they are structured using itemize and enumerate environments, and so on. This manual is available online for free at [ctan.org](http://ctan.org). This manual is printed in grayscale.

Color Atlas Diagnostic Microbiology is the most comprehensive atlas of its kind. An ideal reference for professionals, residents, and students, the atlas features a collection of over 700 must-have full-color images that were specifically commissioned for the atlas and have never before been published.

Retiring to a seaside cabin near San Francisco, Jack Duluoz looks for tranquility, but finds only horror and despair.

The national bestselling memoir of a friendship between a New England outdoorsman and the scrawny foxhound who came to his door one snowy day. In the midst of a blizzard, late one Christmas night in the 1950s, author Hal Borland heard a howl at the back door of his home on a hundred-acre farm in the Housatonic Valley of northwest Connecticut. Resistant at first, he called around trying to find an owner whose dog had gone missing—with no luck. Finally, with the encouragement of his wife and haunted by memories of his childhood collie, Borland brought some scraps of leftover steak outside. This was his introduction to Pat, a miserable, half-starved, but deeply trusting black-and-white foxhound mutt. Pat would soon become a member of the family, accompanying Borland on hunts and terrorizing the local woodchuck population—and teaching him that sometimes our most immediate connection to the natural world is through the animals we live with. A longtime journalist and a winner of the John Burroughs Medal for distinguished nature writing, Borland tells the tale of the time he shared with Pat in this touching true story that “will appeal to many sportsmen and to all people who have ever been closely attached to a dog” (The New York Times Book Review).
