

History Alive The United States Through Industrialism Chapter 8

History Alive! The Ancient World introduces students to the beginnings of the human story. As they explore the great early civilizations of Egypt and the Near East, India, China, Greece, and Rome, students discover the secrets of these ancient cultures that continue to influence the modern world. History Alive! The Medieval World and Beyond explores the legacy of civilizations from Europe, Africa, and the Middle East to Asia and the Americas. History Alive! The United States Through Industrialism immerses students in a powerful journey through the history of the United States from its earliest foundations to the age of industrialism. History Alive! The United States Through Modern Times captures the story of the United States from the precolonial era to the 21st century.

From the 1940s through the 1960s, young pregnant women entered the front door of a clinic in a small North Georgia town. Sometimes their babies exited out the back, sold to northern couples who were desperate to hold a newborn in their arms. But these weren't adoptions--they were transactions. And one unethical doctor was exploiting other people's tragedies. Jane Blasio was one of those babies. At six, she learned she was adopted. At fourteen, she first saw her birth certificate, which led her to begin piecing together details of her past. Jane undertook a decades-long personal investigation to not only discover her own origins but identify and reunite other victims of the Hicks Clinic human trafficking scheme. Along the way she became an expert in illicit adoptions, serving as an investigator and telling her story on every major news network. Taken at Birth is the remarkable account of her tireless quest for truth, justice, and resolution. Perfect for book clubs, as well as those interested in inspirational stories of adoption, human trafficking, and true crime.

A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and opportunity. A Libertarian Walks Into a Bear is the sometimes funny, sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear.

Hundreds of visual and verbal facts describe the experiences of children living in America from 1607 through 2001, from surviving a harsh James Towne winter to witnessing the chaos of the September 11 terrorist attacks in New York City.

It's late summer 1793, and the streets of Philadelphia are abuzz with mosquitoes and rumors of fever. Down near the docks, many have taken ill, and the fatalities are mounting. Now they include Polly, the serving girl at the Cook Coffeehouse. But fourteen-year-old Mattie Cook doesn't get a moment to mourn the passing of her childhood playmate. New customers have overrun her family's coffee shop, located far from the mosquito-infested river, and Mattie's concerns of fever are all but overshadowed by dreams of growing her family's small business into a thriving enterprise. But when the fever begins to strike closer to home, Mattie's struggle to build a new life must give way to a new fight—the fight to stay alive.

Normandy depicts the planning and execution of Operation Overlord in 96 full-color pages. The initial paratrooper assault is shown, as well as the storming of the five D-Day beaches: Utah, Omaha, Gold, Juno, and Sword. But the story does not end there. Once the Allies got ashore, they had to stay ashore. The Germans made every effort to push them back into the sea. This book depicts the such key events in the Allied liberation of Europe as: 1. Construction of the Mulberry Harbors, two giant artificial harbors built in England and floated across the English Channel so that troops, vehicles, and supplies could be offloaded across the invasion beaches. 2. The Capture of Cherbourg, the nearest French port, against a labyrinth of German pillboxes. 3. The American fight through the heavy bocage (hedgerow country) to take the vital town of Saint-Lô. 4. The British-Canadian struggle for the city of Caen against the “Hitler Youth Division,” made up of 23,000 seventeen- and eighteen-year-old Nazi fanatics. 5. The breakout of General Patton’s Third Army and the desperate US 30th Division’s defense of Mortaine. 6. The Falaise Pocket, known as the “Killing Ground,” where the remnants of two German armies were trapped and bombed and shelled into submission. The slaughter was so great that 5,000 Germans were buried in one mass grave. 7. The Liberation of Paris, led by the 2nd Free French Armored Division, which had been fighting for four long years with this goal in mind.

A first-person narrative of Olaudah Equiano's journey from his native Africa to the New World, that follows his capture, introduction to Christianity and eventual release. His story is an eye-opening depiction of personal resilience in the face of structural oppression. Olaudah Equiano's origins are rooted in West Africa's Eboe district, which is modern-day Nigeria. He details the shocking events that led up to his kidnapping and subsequent trade into slavery. His journey starts at 11 years old, forcing him to come of age in a society that abuses him at every turn. During his plight, he attempts to find new ways to survive, educating himself and eventually formulating a plan to obtain his freedom. In *The Interesting Narrative of the Life of Olaudah Equiano*, the author illustrates the harsh realities of slavery. Upon its release, the book was well-received and translated into multiple languages including German and Dutch. It set the precedent for many first-person narratives that would highlight their own unfathomable experiences. With an eye-catching new cover, and professionally typeset manuscript, this edition of *The Interesting Narrative of the Life of Olaudah Equiano* is both modern and readable.

This practical resource shows you how to apply Sam Wineburg's highly acclaimed approach to teaching, "Reading Like a Historian," in your middle and high school classroom to increase academic literacy and spark students' curiosity. NATIONAL BOOK AWARD FINALIST • NATIONAL BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Lost City of Z*. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history.

• *Globe and Mail* Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

It is the best known book about American slavery, and was so incendiary upon its first publication in 1852 that it actually ignited the social flames that led to Civil War less than a decade later. What began as a series of sketches for the Cincinnati abolitionist newspaper *The National Era* scandalized the North, was banned in the South, and ultimately became the bestselling novel of the 19th century. Today, controversy over this melodramatic tale of the dignified slave Tom, the brutal plantation owner Simon Legree, and Stowe's other vividly drawn characters continues, as modern scholars debate the work's newly appreciated feminist undertones and others decry it as the source of enduring stereotypes about African Americans. As one of the most influential books in U.S. history, it deserves to be read by all students of literature and of the American story. American abolitionist and author HARRIET BEECHER STOWE (1811-1896) was born in Connecticut, daughter of a Congregationalist minister and sister to abolitionist theologian Henry Ward Beecher. She wrote more than two dozen books, both fiction and nonfiction.

During the 1976 Bicentennial celebration, millions of Americans engaged with the past in brand-new ways. They became absorbed by historical miniseries like *Roots*, visited museums with new exhibits that immersed them in the past, propelled works of historical fiction onto the bestseller list, and participated in living history events across the nation. While many of these activities were sparked by the Bicentennial, M. J. Rymysz-Pawlowska shows that, in fact, they were symptomatic of a fundamental shift in Americans' relationship to history during the 1960s and 1970s. For the majority of the

twentieth century, Americans thought of the past as foundational to, but separate from, the present, and they learned and thought about history in informational terms. But Rymza-Pawlowska argues that the popular culture of the 1970s reflected an emerging desire to engage and enact the past on a more emotional level: to consider the feelings and motivations of historic individuals and, most importantly, to use this in reevaluating both the past and the present. This thought-provoking book charts the era's shifting feeling for history, and explores how it serves as a foundation for the experience and practice of history making today.

Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In *How to Hide an Empire*, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano Islands, where prospectors collected one of the nineteenth century's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr notes, the United States moved away from colonialism. Instead, it put innovations in electronics, transportation, and culture to use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, *How to Hide an Empire* is a major and compulsively readable work of history.

Derry is the second largest city in Northern Ireland and has had a Catholic majority since 1850. It was witness to some of the most important events of the civil rights movement and the Troubles. *Derry City* examines Catholic Derry from the turn of the twentieth century to the end of the 1960s and the start of the Troubles. Plotting the relationships between community memory and historic change, Margo Shea provides a rich and nuanced account of the cultural, political, and social history of Derry using archival research, oral histories, landscape analysis, and public discourse. Looking through the lens of the memories Catholics cultivated and nurtured as well as those they contested, she illuminates Derry's Catholics' understandings of themselves and their Irish cultural and political identities through the decades that saw Home Rule, Partition, and four significant political redistricting schemes designed to maintain unionist political majorities in the largely Catholic and nationalist city. Shea weaves local history sources, community folklore, and political discourse together to demonstrate how people maintain their agency in the midst of political and cultural conflict. As a result, the book invites a reconsideration of the genesis of the Troubles and reframes discussions of the "problem" of Irish memory. It will be of interest to anyone interested in Derry and to students and scholars of memory, modern and contemporary British and Irish history, public history, the history of colonization, and

popular cultural history.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

THE CLASSIC NATIONAL BESTSELLER "A wonderful, splendid book—a book that should be read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future." —Howard Fast Historian Howard Zinn's *A People's History of the United States* chronicles American history from the bottom up, throwing out the official narrative taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, it is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As Zinn shows, many of our country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States* features insightful analysis of the most important events in our history. This edition also includes an introduction by Anthony Arnove, who wrote, directed, and produced *The People Speak* with Zinn and who coauthored, with Zinn, *Voices of a People's History of the United States*.

A much-needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality and community, the national and global past and concepts of time. Throughout the authors empower teachers to adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. *Bringing History Alive through Local People and Places* puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the subject. Practical topics explored include: Investigating children's cultural and geographical roots through fieldwork Finding and visiting local museums, archives and heritage sights Choosing and using resources Using significant people, events and buildings to link with national history Environmental education and sustainable development through local history Understanding the links between history and everyday life Planning and assessing history. Based on the latest research and practice in the field, *Bringing History Alive through Local People and Places* offers an exciting template of creative ideas and

activities to show teachers how they can make history relevant to all children.
