In this study the views of Japan's leading experts on the globalization of Japanese business, management and industrial relations explain how traditional Japanese-style management is responding to the changes following the collapse of the bubble economy. The areas covered include the changes made in management itself inside Japan and also how it is adapting itself when transferred overseas. The book demonstrates how management is moving towards a hybrid type in overseas operations and towards a western-style in Japan, where contractual principles are beginning to be given greater weight.

The multiple and diverse forces of globalization have, indeed, affected Japan significantly over the past decades. But so, it must be said, has Japan influenced a variety of critical global developments - globalization is not a one-way street, particularly for a nation as economically influential and technologically advanced as Japan. The chapters in this collection examine the impact of globalization on Japan and the impact of Japan on the forces of globalization from the various disciplinary perspectives of business, the economy, politics, technology, culture and society. They also explain the manner in which the nation has responded to the economic and cultural liberalization that has been such a profound force for change around the globe. This comprehensive collected works brings the latest research to bear on this important subject and provides evidence of the long history of global influences on Japan - and Japanese impacts on the rest of the world. This book will be of interest to students and scholars of globalization, Japanese Studies, and Asian Studies.
