Groomed for a place at a Big Name School since their obsessed, status-conscious helicopter parents passed out cigars at the Stockstill General Hospital Neonatal Unit, the privileged students of Pembrocton College Preparatory are ratcheting up the stakes in the race to get into the nation's most prestigious colleges. The PCP juniors are gloating, jubilant at the rumor that the valedictorian presumptive has received a B on her report card, a grade that will relegate her to in-state hell. Her heir apparent, a three-generation Yale legacy, is the sole mourner at the demise of her future—if only because her thoughtless academic lapse is going to derail his plans to attend MIT. Across town, in the graffiti-covered halls of Stockstill High School, the students slink to class, praying that they arrive without a knife wound—and dream of ivy-covered walls. And with the help of a take-no-prisoners principal and an enterprising parent, the students at SHS dare to encroach shamelessly on territory normally reserved for their wealthy private school rivals. Join the fray as a memorable cast of characters engages in the latest rage in extracurricular activities: college admissions as a blood sport. Laugh out loud funny, The Applicants lampoons the heights we scale—and the depths to which we sink—to get into the “right” college. ?

Carrying only basic camping equipment and a collection of the world's great spiritual writings, Belden C. Lane embarks on solitary spiritual treks through the Ozarks and across the American Southwest. For companions, he has only such teachers as Rumi, John of the Cross, Hildegard of Bingen, Dag Hammarskjöld, and Thomas Merton, and as he walks, he engages their writings with the natural wonders he encounters--Bell Mountain Wilderness with Søren Kierkegaard,

Moonshine Hollow with Thich Nhat Hanh--demonstrating how being alone in the wild opens a rare view onto one's interior landscape, and how the saints' writings reveal the divine in nature. The discipline of backpacking, Lane shows, is a metaphor for a spiritual journey. Just as the wilderness offered revelations to the early Desert Christians, backpacking hones crucial spiritual skills: paying attention, traveling light, practicing silence, and exercising wonder. Lane engages the practice not only with a wide range of spiritual writings--Celtic, Catholic, Protestant, Buddhist, Hindu, and Sufi Muslim--but with the fascination of other lovers of the backcountry, from John Muir and Ed Abbey to Bill Plotkin and Cheryl Strayed. In this intimate and down-to-earth narrative, backpacking is shown to be a spiritual practice that allows the discovery of God amidst the beauty and unexpected terrors of nature. Adoration, Lane suggests, is the most appropriate human response to what we cannot explain, but have nonetheless learned to love. An enchanting narrative for Christians of all denominations, *Backpacking with the Saints* is an inspiring exploration of how solitude, simplicity, and mindfulness are illuminated and encouraged by the discipline of backcountry wandering, and of how the wilderness itself becomes a way of knowing--an ecology of the soul.

Once there was a redwood tree—one of the world's largest and tallest trees, and one of the oldest. And once, born nearly a thousand years after the tree first took root, there was a girl named Julia, who was called Butterfly. When exploring her beloved forest, Butterfly wandered into a grove of ancient trees. One tree had broken branches and a big blue "X" on the side. It was going to be chopped down. Butterfly climbed up into the tree. A tree wouldn't be cut down if it had a person living in it. This is the story of Julia Butterfly Hill and Luna, the redwood tree she lived in for two years, never once coming down. That is, not until Luna's future was safe.

At just twenty-two years of age, Briana Mills finds herself at a desperate crossroads. Once a promising student at the University of Oregon, she now finds herself alone on the streets of Portland with only the clothes on her back, memories of a happier time, and the stray dog that's adopted her. And she's got the drug that helps her forget. Briana's mistakes haunt her, lashing her with severe consequence, forcing her to make a decision few would ever make. Still, in a final attempt to make her young life count for something, Briana begins writing it all down—everything—so that others walking the crumbling precipice of rebellion might leap to safety before it's too late. She writes about her present struggles and the past. She writes about Michael, the boy she loved and left behind when she went off to college. She writes about the violent activism and drug that derailed her life. She writes about the demands placed on her by a socially conscious mother, and the adoration shown by a proud father. And Briana talks about Brody—the young activist leader who captured her heart, took it to the altar, and then crushed it. What develops is an engrossing record of a young and troubled life, one both beautiful and ugly, innocent and corrupt, lost and then found. And wrapped in its

literary sinew is a cast of characters as diverse and engaging as the stars, and an impassioned love story sure to transcend time. What readers are saying: "Timeless...provocative." "Characters so real you'd swear this was a true account." "A brilliant read!" Alone Among People is D. M. Anthony's first novel. He lives in California where he's at work on his next book. This review is from: Alone Among People (Paperback) A Compelling and Heart Warming Story, September 25, 2012 "Alone Among People is at once an engaging, moving story and a provocative statement about the thin line between thriving and sinking into an abyss as inescapable as quicksand. Its timeless and uplifting messages of hope conquering despair, healing borne of love and care, and peace at discovering one's identity are an inspiration. The author's empathy for the characters and their plight betrays knowledge of what he writes, and offers the reader a unique glimpse into a vulnerable and intimate place... his heart. I recommend this book to anyone who has traveled through the anguish of darkness and longed for the light; it may just guide your way."

In the wake of the death of his friend Arthur Henry Hallam, the subject of *In Memoriam*, Alfred Tennyson wrote a range of intricately connected poems, many of which feature pivotal scenes of rapture, or being carried away. This book explores Tennyson's representation of rapture as a radical mechanism of transformation-theological, social, political, or personal-and as a figure for critical processes in his own poetics. The poet's fascination with transformation is figured formally in the genre he is credited with inventing, the dramatic monologue. *Tennyson's Rapture* investigates the poet's previously unrecognized intimacy with the theological movements in early Victorian Britain that are the acknowledged roots of contemporary Pentecostalism, with its belief in the oncoming Rapture, and its formative relation to his poetic innovation. Tennyson's work recurs persistently as well to classical instances of rapture, of mortals being borne away by immortals. Pearsall develops original readings of Tennyson's major classical poems through concentrated attention to his profound intellectual investments in advances in philological scholarship and archeological exploration, including pressing Victorian debates over whether Homer's raptured Troy was a verifiable site, or the province of the poet's imagination. Tennyson's attraction to processes of personal and social change is bound to his significant but generally overlooked Whig ideological commitments, which are illuminated by Hallam's political and philosophical writings, and a half-century of interaction with William Gladstone. Pearsall shows the comprehensive engagement of seemingly apolitical monologues with the rise of democracy over the course of Tennyson's long career. Offering a new approach to reading all Victorian dramatic monologues, this book argues against a critical tradition that sees speakers as unintentionally self-revealing and ignorant of the implications of their speech. *Tennyson's Rapture* probes the complex aims of these discursive performances, and shows how the ambitions of speakers for vital transformations in themselves and their circumstances are not only articulated in, but attained through, the medium of their monologues.

"Prey," whispered my inner wolf. There was a certain beauty, a certain simplicity, to her animal mindset. She was quick to label anyone or anything we met as "Pack," "Predator," or "Prey." Together, wolf and woman, we always managed to tell where anyone stood. Until the day we met that damned Magician in Tokyo. *** Luna White is a runaway, a lone werewolf running from her home and pack and her Alpha's obsession with using her to expand the pack; a plan that would have devastating consequences for Luna. She runs to Tokyo, where American werewolf packs are unknown. With a big personality and ego to match; she lands in Tokyo with a splash. Mason Carter is a Magician. He traveled from America and settled in Tokyo. He doesn't care for werewolves; their lack of control runs against the principles of magic. Are you awed by the smell of flowers or the busy buzz of the bees? Are you awed by the all of the snow or the rustle of the trees? In *The Book of Awe*, readers are reminded to take a minute and see the beauty in the everyday things around them.

We've watched the Romanian Grey Wolves find their true mates, fight against evil and reunite with the other *Canis lupis* in the world. Now we will see just how the most powerful Alpha in their history met his match with the woman who became his mate, and helped him become the man he needed to be in order to lead. Every life leaves behind a legacy. Every story has a beginning and an end. The Alpha of the Romania Grey Wolves knows this better than most. He also knows it's the things that transpire to create that legacy and the experiences, triumphs and failures that happen in the middle of the story that matter. His story began a century ago and now a tragedy has led him to his rightful place as Alpha of the Eastern Romania pack. Before he led hundreds, he had to learn to lead a few. Before he sacrificed for all, he had to be willing to sacrifice for any. Before he could be the man destined to save his race he had to be willing to serve them. In order to be raised up he had to first be torn down. There was only one who could do this and live, only one who could light his way when the darkness closed in; his mate, his Luna. This is the building of their legacy, the middle of their story. Their triumphs, their failures, and their tragedy's that would one day make them strong enough to restore a race torn apart by greed, envy, and fear.

Life on the reservation is not a dream. These stories tell the harsh realities of life with murderous men and murderous weather. Robidoux's novella of *Lucy Little Bear* is as rich and complex as life itself.---"When I was seven my mother tried to kill me." So begins the journey of Lucy Little Bear in a place "so cold salt water freezes in the bay." All the characters in these linked narratives find their way into the warmth of your soul. An old woman, Lily Paul, sings in the old language until the fire sings back. She turns into an ermine to survive a perilous journey to her trailer park, "Hollywood," on coastal Maine. And there is Shawna and the danger of those Moonlight Tours. Robidoux creates a mystical place with her words ...where "fog floats in and out with the tide...creating a feeling the world is just a dream." But life on the reservation is not a dream. These stories tell the harsh realities of life with murderous men and murderous weather. There is "generational loneliness" in the eerie call of a loon on Pennamaquan Lake. There are wonderful place names that live as the characters in the beauty of these stories that transcend the harshness and recall the "star bridge" over which we walked. Diane Glancy, author of *Pushing the Bear*, *Claiming Breath*, *The Collection of Bodies: Concern for Syria and the Middle East* and others. In these luminous linked stories, *Lucy Little Bear* is our entre into the lives of those who live on the Borderlands, between Canada and the US, on Reservation and off, people who live close to the earth and can channel its energies. Weaving elements of story, mystery and dream, tethering the collection with one transcendent description of landscape after another, Robidoux explicates both the deep sadness of the people whose lives have been devalued by the US mainstream for centuries, and also their indomitable strength. Pam Houston, author, *Contents May Have Shifted*. The stories in the *Legacy of Lucy Little Bear* will transport you to Northpoint, Barbara Robidoux's fictional Maine reservation. The characters there love and kill each other and they sometimes come back to love and try some more. They fight with humor through sadness, and the landscape returns them to each other and to themselves. They enter frozen rivers and come out changed. They

On December 18, 1999, Julia Butterfly Hill's feet touched the ground for the first time in over two years, as she descended from "Luna," a thousand-year-old redwood in Humboldt County, California. Hill had climbed 180 feet up into the tree high on a mountain on December 10, 1997, for what she thought would be a two- to three-week-long "tree-sit." The action was intended to stop Pacific Lumber, a division of the Maxxam Corporation, from the environmentally destructive process of clear-cutting the ancient redwood and the trees around it. The area immediately next to Luna had already been stripped and, because, as many believed, nothing was left to hold the soil to the mountain, a huge part of the hill had slid into the town of Stafford, wiping out many homes. Over the course of what turned into an historic civil action, Hill endured El Nino storms, helicopter harassment, a ten-day siege by company security guards, and the tremendous sorrow brought about by an old-growth forest's destruction. This story--written while she lived on a tiny platform eighteen stories off the ground--is one that only she can tell. Twenty-five-year-old Julia Butterfly Hill never planned to become what some have called her--the Rosa Parks of the environmental movement. She never expected to be honored as one of Good Housekeeping's "Most Admired Women of 1998" and George magazine's "20 Most Interesting Women in Politics," to be featured in People magazine's "25 Most Intriguing People of the Year" issue, or to receive hundreds of letters weekly from young people around the world. Indeed, when she first climbed into Luna, she had no way of knowing the harrowing

weather conditions and the attacks on her and her cause. She had no idea of the loneliness she would face or that her feet wouldn't touch ground for more than two years. She couldn't predict the pain of being an eyewitness to the attempted destruction of one of the last ancient redwood forests in the world, nor could she anticipate the immeasurable strength she would gain or the life lessons she would learn from Luna. Although her brave vigil and indomitable spirit have made her a heroine in the eyes of many, Julia's story is a simple, heartening tale of love, conviction, and the profound courage she has summoned to fight for our earth's legacy.

As Obama fades into the history books, and other political forces and agendas move forward in support or in opposition to Obama's far-left and pro-Islamic political agenda, the collective memory of the American public and his supporters around the world will tend to remember the positive highlights of Obama's speeches and policies. Obama's Book of Lies is a counterbalance to the favorable image of Obama that will be portrayed by the media and his advocates. Since Obama's misrepresentations and misinformation permeated all aspects of his politics and his life, there are more examples of his disingenuousness than might be expected (15 chapters). This review will probably be regarded as the most comprehensive (almost 400 footnotes) and accurate analysis of Obama's presidency. This compendium will be enjoyed by all parties who are interested in politics and are seeking a thorough examination of Obama, his speeches and his policies, while reliving Obama's most memorable moments. James McCormack is a veteran political science writer, who has accurately predicted Russia's invasion of Ukraine, Obama's pro-Islamist leanings during his presidency, the surprise presidential electoral victory of Donald Trump (predicted in early 2016), the increasing tensions between Saudi Arabia and Qatar, Iran's increasing influence and deployment along Israel's northern border, and the use of economic countermeasures directed at China which will be necessary to rein in North Korea's nuclear program. McCormack's political insights are unmatched, and his writings have guided presidential decision making on multiple occasions. The book ends with a new set of predictions, and includes a chapter that reveals the unsettling and shocking truth about what really happened during the Benghazi fiasco, and what Obama did that evening when he became unreachable during the eight hour al-Qaeda attack on the U.S. consulate. McCormack has
