"This course and this book are about management and managers. Managers are one thing that all organizations--no matter the size, kind, or location--need. And there's no doubt that the world managers face has changed, is changing, and will continue to change. The dynamic nature of today's organizations means both rewards and challenges for the individuals who will be managing those organizations. Management is a dynamic subject, and a textbook on it should reflect those changes to help prepare you to manage under the current conditions. We've written this 14th edition of Management to provide you with the best possible understanding of what it means to be a manager confronting change and to best prepare you for that reality. But not every student aspires to a career in management. And even if you do, you may be five or ten years away from reaching a managerial position. So you might rightly feel that taking a course in management now may be getting ahead of the game. We hear you. In response to these concerns, we've added new material to this book that is important and relevant to everyone working in an organization--manager and non-manager alike. Our "Workplace Confidential" pages identify, analyze, and offer suggestions for dealing with the major challenges that surveys indicate frustrate employees the most. You should find these pages valuable for helping you survive and thrive in your workplace. Surprisingly, this topic has rarely been addressed in business programs. Inclusion in an introductory management course appeared to us to be a logical place to introduce these challenges and to provide guidance in handling them"--

As competitors strive to win the war for talent, effective human resource management is necessary to gain true competitive advantage in the marketplace. Three challenges companies face are sustainability, technology, and globalization. Human Resource Management 5th Edition brings these challenges to life by highlighting real-world examples pertaining to these issues and relating it to the concepts within the chapter. This best-selling McGraw-Hill/Irwin Human Resource Management title provides students with the technical background needed to be a knowledgeable consumer of human resource (HR) products and services, to manage HR effectively, or to be a successful HR professional. While clearly strategic in nature, the text also emphasizes how managers can more effectively acquire, develop, compensate, and manage the internal and external environment that relates to the management of human resources. The second edition features new and in-depth coverage of sustainability, ethics and corporate social responsibility and new case studies from local and international businesses.

This follow-up to New York Times bestseller *The Food Babe Way* exposes the lies we've been told about our food--and takes readers on a journey to find healthy options. There's so much confusion about what to eat. Are you jumping from diet to diet and nothing seems to work? Are you sick of seeing contradictory health advice from

experts? Just like the tobacco industry lied to us about the dangers of cigarettes, the same untruths, cover-ups, and deceptive practices are occurring in the food industry. Vani Hari, aka The Food Babe, blows the lid off the lies we've been fed about the food we eat--lies about its nutrient value, effects on our health, label information, and even the very science we base our food choices on. You'll discover:

- How nutrition research is manipulated by food company funded experts
- How to spot fake news generated by Big Food
- The tricks food companies use to make their food addictive
- Why labels like "all natural" and "non-GMO" aren't what they seem and how to identify the healthiest food
- Food marketing hoaxes that persuade us into buying junk food

Vani guides you through a 48-hour Toxin Takedown to rid your pantry, and your body, of harmful chemicals--a quick and easy plan that anyone can do. A blueprint for living your life without preservatives, artificial sweeteners, additives, food dyes, or fillers, eating foods that truly nourish you and support your health, *Feeding You Lies* is the first step on a new path of truth in eating--and a journey to your best health ever.

The first edition of *The Rules of Management* became a global phenomenon, topping bestseller charts around the world. This new, even better edition contains 10 brand new rules to take you further, faster. In *Wired to Care*, top business strategist Dev Patnaik tells the story of how organizations of all kinds prosper when they tap into

a power each of us already has: empathy, the ability to reach outside of ourselves and connect with other people. When people inside a company develop a shared sense of what's going on in the world, they see new opportunities faster than their competitors. They have the courage to take a risk on something new. And they have the gut-level certitude to stick with an idea that doesn't take off right away. People are Wired to Care, and many of the world's best organizations are, too.
