Over the last 25 years there has been a considerable increase in the awareness of quality related issues. In the world of business and commerce, this awareness has manifested itself in the development of what was the British Quality Standard BS 5750 into what is now the international standard BS EN ISO 9000. Alongside all of this, consumers in general have developed increasingly demanding expectations with regard to the quality of goods and services available in the market place. During a similar period there has also been an increase in legislation, together with an expansion of the common law, which has strengthened the protection already afforded to the consumer. This book will provide quality practitioners, managers and those with a general interest in quality, with an insight into the legal issues involved. In addition, the book shows how the implementation of a Quality Assurance Management System - such as that required in order to be registered as a firm of assessed capability, in accordance with BS EN ISO 9000 - can act as an aid to businesses seeking to comply with their legal obligations. In addition, for those following a formal course of study, the

Selling and delivering a project to a satisfied client, and making a profit, is a complex task. Project manager and author Robin Hornby believes this has been neglected by current standards and is poorly understood by professionals in the field. Commercial Project Management aims to rectify this deficiency. As a unique 'how-to' guide for project and business managers, it offers practical guidance, and a wealth of explanatory illustrations, useful techniques, proven checklists, real life examples, and case stories. It will give project managers a needed confidence boost and a head start in their demanding role as they go 'on contract'. At the heart of Robin's approach is a vendor sales and delivery lifecycle that provides a framework for business control of projects. Unique elements include the integration of buyer and vendor project lifecycles, the recasting of project management as a
