Originally published in 1889, this work's protagonist Andrea Sperelli introduced the Italian culture to aestheticism and a taste for decadence. The young count seeks beauty, despises the bourgeois world, and rejects the basic rules of morality and social interaction. His corruption is evident in his sadistic superimposing of two women.

Les Fleurs du mal is a volume of French poetry by Charles Baudelaire. First published in 1857, it was important in the symbolist and modernist movements. The poems deal with themes relating to decadence and eroticism.

The Second Jungle Book is a sequel to The Jungle Book by Rudyard Kipling. First published in 1895, it features five stories about Mowgli and three unrelated stories, all but one set in India, most of which Kipling wrote while living in Vermont. All of the stories were previously published in magazines in 1894-5, often under different titles. The original book is now worth \$3.4 million.

Cosimo di Rondó, a young Italian nobleman of the eighteenth century, rebels against his parents by climbing into the trees and remaining there for the rest of his life. He adapts efficiently to an existence in the forest canopy—he hunts, sows crops, plays games with earth-bound friends, fights forest fires, solves engineering problems, and even manages to have love affairs. From his perch in the trees, Cosimo sees the Age of Enlightenment pass by and a new century dawn.

The author describes his twenty month ordeal in the Nazi death camp.

Hard Times illustrated Charles Dickens - Hard Times: For These Times (commonly known as Hard Times) is the tenth novel by Charles Dickens, first published in 1854. The book surveys English society and satirises the social and economic conditions of the era. "Now, what I want is, Facts. . . . Facts alone are wanted in life." Thus begins Superintendent Mr. Gradgrind—a wealthy, retired merchant—addressing a group of young students at his school in the industrial town of Coketown, England. A rigid man of fact, rational self-interest and realities, he not only teaches his pupils according to the utilitarian principles, but also raises his children with the same philosophy. When they grow up, as their lives begin to turn chaotic, they reproach their father for their upbringing. Will Mr. Gradgrind realize his flaws and become a humble man? Satirizing the laissez-faire system, Dickens' Hard Times lays bare the wide gap between the rich and the poor. Criticizing the materialistic world, this Victorian novel throws light on the value of emotions and the human heart. It has undergone several film and theatre adaptations.

The revered creator of such films as La Dolce Vita and La Strada presents a personal diary of his private visions and nighttime fantasies as depicted through a series of notebook sketches, in a volume that offers insight into his creative vision and penchant for bizarre imagery.

Never-before-published work by an iconic woman artist from the very start of her career. Francesca Woodman took her first photograph at the age of the thirteen. From the time she was a teenager until her death at twenty-two, she produced a fascinating body of work exploring gender, representation, and sexuality by photographing her own body and those of her friends. Featuring approximately forty unique vintage prints, as well as notes, letters, postcards, and other ephemera related to the artist's burgeoning career, the volume, which accompanies an exhibition of the same name at MCA Denver, details both Woodman's creative and personal coming-of-age during the years 1975-1979.

Francesca Woodman: Portrait of a Reputation considers how the artist came into her creative voice and her singular approach to photography at a notably young age. Ranging from portraits in her studio/apartment in college to self-portraits in the bucolic Colorado landscape in which she was raised, these works capture Woodman's hallmark approach to art making: enigmatic, rigorous, and poignant. The volume also includes select photographs of Woodman taken by friend and RISD classmate George Lange during this period. Taken together, they present a nuanced and in-depth study of this formative period in the development of this groundbreaking artist.

Kate Tempest's powerful narrative poem--set to music on her album of the same title, shortlisted for the Mercury Music Prize--illuminates the lives of a single city street, creating an electric, humming human symphony. Let Them Eat Chaos, Kate Tempest's long poem written for live performance and heard on the album release of the same name, is both a powerful sermon and a moving play for voices. Seven neighbors inhabit the same London street, but are all unknown to each other. The clock freezes in the small hours, and one by one we see directly into their lives: lives that are damaged, disenfranchised, lonely, broken, addicted, and all, apparently, without hope. Then a great storm breaks over London, and brings them out into the night to face each other, giving them one last chance to connect. Tempest argues that our alienation from one another has bred a terrible indifference to our own fate, but she counters this with a plea to challenge the forces of greed which have conspired to divide us, and mend the broken home of our own planet while we still have time. Let Them Eat Chaos is a cri de cœur, a call to action, and a powerful poetic statement.

Often likened to Kafka's The Castle, The Tartar Steppe is both a scathing critique of military life and a meditation on the human thirst for glory. It tells of young Giovanni Drogo, who is posted to a distant fort overlooking the vast Tartar steppe. Although not intending to stay, Giovanni suddenly finds that years have passed, as, almost without his noticing, he has come to share the others' wait for a foreign invasion that never happens. Over time the fort is downgraded and Giovanni's ambitions fade--until the day the enemy begins massing on the desolate steppe...

In January 1921, D. H. Lawrence and his wife, Frieda visited Sardinia, a Mediterranean island west of Italy. Although the trip lasted only nine days, Lawrence wrote an intriguing account of Sardinian life that not only evokes the place, people, and local customs but is also deeply revealing about the writer himself. Remarkable for its metaphoric and

symbolic descriptions, the book is transfused with the author's anger and joy. His prejudices and his political prophecies make Sea and Sardinia a unique and dynamic piece of travel writing. This Penguin Twentieth-Century Classics edition reproduces the Cambridge text, which restores censored passages and corrects corrupt textual readings to reveal -- for the first time -- the book Lawrence himself called "a marvel of veracity." Also featured are an illuminating Introduction by Lawrence scholar Mara Kalnins, a Chronology, Explanatory Notes, and an Italian Glossary. Copyright © Libri GmbH. All rights reserved.

An enchanting, comic love letter to sibling rivalry and the English language. From the author compared to Nora Ephron and Nancy Mitford, not to mention Jane Austen, comes a new novel celebrating the beauty, mischief, and occasional treachery of language. The Grammarians are Laurel and Daphne Wolfe, identical, inseparable redheaded twins who share an obsession with words. They speak a secret "twin" tongue of their own as toddlers; as adults making their way in 1980s Manhattan, their verbal infatuation continues, but this love, which has always bound them together, begins instead to push them apart. Daphne, copy editor and grammar columnist, devotes herself to preserving the dignity and elegance of Standard English. Laurel, who gives up teaching kindergarten to write poetry, is drawn, instead, to the polymorphous, chameleon nature of the written and spoken word. Their fraying twinship finally shreds completely when the sisters go to war, absurdly but passionately, over custody of their most prized family heirloom: Merriam Webster's New International Dictionary, Second Edition. Cathleen Schine has written a playful and joyful celebration of the interplay of language and life. A dazzling comedy of sisterly and linguistic manners, a revelation of the delights and stresses of intimacy, *The Grammarians* is the work of one of our great comic novelists at her very best.

In sixteen spirited essays, Pulitzer Prize-winning novelist Alison Lurie, who is also one of our wittiest and most astute cultural commentators, explores the world of children's literature--from Lewis Carroll to Dr. Seuss, Mark Twain to Beatrix Potter--and shows that the best-loved children's books tend to challenge rather than uphold respectable adult values.

National Book Award Nominee: "Somehow both genuinely scary and genuinely funny, sometimes on the same page—a wickedly entertaining ride."—Publishers Weekly (starred review) One of Publishers Weekly's Best Books of the Year On the outskirts of Buenos Aires in 1907, a doctor becomes involved in a misguided experiment that investigates the threshold between life and death. One hundred years later, a celebrated artist goes to extremes in search of aesthetic transformation, turning himself into an art object. How far are we willing to go, this novel asks, in pursuit of transcendence? The world of *Comemadre* is full of vulgarity, excess, and discomfort: strange ants that form almost perfect circles, missing body parts, obsessive love affairs, and man-eating plants. Darkly funny, smart, and engrossing, here the monstrous is not alien, but the consequence of our relentless pursuit of collective and personal progress. "Outrageous...insanely funny."—BOMB "In this dark, dense, surprisingly short debut novel by the Argentinian author, we're confronted with enough grotesqueries to fill a couple Terry Gilliam films and, more importantly, with the idea that the only real monsters are those that are formed out of our own ambition." —The Millions

Situated at the intersection of animal studies and literary theory, this book explores the remarkable and subtly pervasive web of animal imagery, metaphors, and concepts in the work of the Jewish-Italian writer, chemist, and Holocaust survivor Primo Levi (1919-1987). Relatively unexamined by scholars, the complex and extensive animal imagery Levi employed in his literary works offers new insights into the aesthetical and ethical function of testimony, as well as an original perspective on contemporary debates surrounding human-animal relationships and posthumanism. The three main sections that compose the book mirror Levi's approach to non-human animals and animality: from an unquestionable bio-ethical origin ("Suffering"); through an investigation of the relationships between writing, technology, and animality ("Techne"); to a creative intellectual project in which literary animals both counterbalance the inevitable suffering of all creatures, and suggest a transformative image of interspecific community ("Creation").

When her owner dies at the start of the Revolution, a greedy nephew keeps Isabel and her younger sister enslaved and sells them to Loyalists in New York, where Isabel is offered the chance to spy for the Patriots.

An examination of the diverse roles exotic animals, both living species and depicted as motifs in art, played in the fashioning of the Medici's courtly identity.

The author's jumping-off point is the myth of Artemis and Siproites, in which a young man is turned into a woman as a punishment for the attempted rape of one of Artemis's virgin cohorts. Bunjevac's retelling follows Benny, a sexually deviant man who, coming across an alluring former classmate, concocts an elaborate, disturbing rape fantasy. Inked in her lush, stippled, illustrative style, Bunjevac crafts a gripping, noirish, Nabokovian tale, by turns surreal and harrowing, that turns the male gaze inside-out. *Bezimena* is both a radical examination of the misconceptions surrounding rape culture and an artistic and psychological tour de force.

*Synthetic Voices* is a ground-breaking collection from the renowned alternative photographer Mark Borthwick -- whose work represents a cross-pollination between contemporary fashion, design, art, advertising, and pop culture styles. The book, which began as a diary, was later edited and re-configured by the artist to achieve the look of assemblage. Snapshots are juxtaposed with drawings and writings in a scrapbook style, the images spilling into one another, recombining in intriguing ways. Borthwick has been one of the key figures in opening up fashion photography to new influences, and his work here is
